

Beyond Green Cleaning ™

Asphalt Remover

-  **Powerful** - Penetrates, dissolves and removes the toughest tar and asphalt products.
-  **Effective** - Performs better, quicker and evaporates slower than diesel and citrus-based products and, as a result, continues to work for a longer period.
-  **Versatile** - Two functions: rapidly dissolves tar and asphalt products, as well as acting as a release agent.
-  **Safe** - Non-flammable and 100% biodegradable.

How to Apply?

Removal Application: Do not dilute with water. For light build-up of asphalts, let sit for 5-10 minutes, then spray clean with water or wipe clean with a wet cloth. For heavy build-up of asphalts, let sit until asphalt has softened, then spray clean with water. After applying Beyond Green Cleaning Asphalt Remover (for tough-to-remove, heavy build-up), use a stiff bristled brush to scrub the asphalt before spraying clean with water." Heavy build-up of asphalt may require a second application.

Releasing Agent Application: Do not dilute with water. Spray light coat of Beyond Green Cleaning Asphalt Remover on the bed surface to prevent sticking of hot asphalt mix.

How is It Packaged?

Beyond Green Cleaning™ Asphalt Remover is packaged in 5-gallon pails (8806-005) and 55-gallon drums (8806-055).

Product Specifications

pH:	Neutral
Appearance:	Liquid
Color:	Clear
Flash Point:	None
Fragrance:	None
Shelf-Stability	One year

Works like Diesel Fuel except it is Legal.
